WHAT CAN AN INTERIOR DESIGN FIRM OFFER YOU?

CLARKSVILLE DESIGNER, MINDY WAGNER, SHARES THE BENEFITS AND BACKGROUND OF HER LOCALLY AND FAMILY OWNED FIRM.

As the name suggests, Mindy Wagner Interior Design, LLC is an Interior Design practice offering complete service interior design, renovation, remodeling and staging with the addition of healthy home Feng-Shui advice.

MWIDLLC is a family owned business and has been since 1983 when Mindy established her first service in the greater Boston, Massachusetts area. In 1990 she moved to Potomac Maryland. More recently, in 1998, a move to Ashton, Maryland offered an opportunity to open a furniture boutique and design office in Olney, called Classic Home & Design.

As a designer partnering with home improvement contractors she decided to

focus on offering strictly custom work and closed the retail store in 2005 to better serve many clients in the Washington, DC -Baltimore area. Her specialty is providing a unique and personalized concept of each home as unique as the individual and the property.

Everyone has their own best style and environment. Mindy has a knack of understanding what will best uplift each person's habitat, and following through with all the elements to bring the design, furnishings and construction to completion.

Because Mindy Wagner, a native New Yorker began her training in art school, with the intent to become a fine artist and art historian, she sees each home as a work

of art- an empty canvas (or crowded one sometimes) on which to compose a unique statement. Not limited to one style, but understanding all the styles, she composes her rooms with an artist's vision.

Further studies, in Interior Design after a degree in art and art history, have forged a well-rounded craft.

With years of experience working with carpenters and contractors in both new construction and remodeling, Mindy is equally comfortable with providing soft furnishings as well as kitchen and bathroom renovation.

Her process includes sitting down for a free first consult for 45 minutes in your home to discuss your needs, and walk through your home. "We get to know your needs and goals, your budget and your time frame. From there we quote our design fee and how we price fabrics, furniture, etc. As furniture dealers we offer discounts designer resources to our clients," notes Mindy.

Mindy's goal is for your home to be a joy for you to live in – a healthy and beautiful sanctuary with practical solutions.

As a lifelong meditator, yoga enthusiast, feng shui practitioner, Mindy shares her passion for balance and good energy with all her clients.
